

FLYTE SO FANCY
THE HEART OF QUALITY

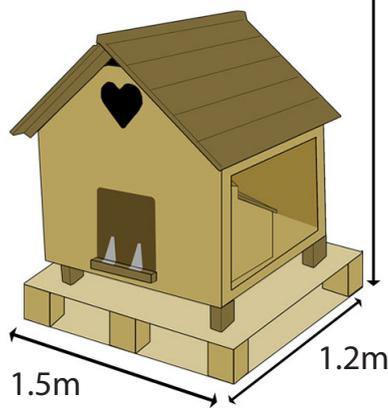

Flyte so Fancy Pallet Deliveries

The delivery pallet size for most housing or log stores is 1.2m x 1.5m (4ft x 5ft) x up to 2.2m high (depending on order contents). The goods are wrapped and strapped on the pallet for you to unpack at your leisure. To the left are some hen houses ready for despatch (this is how they should arrive with you!). The pallet lorry driver will not unpack the pallet for you but will put it, using his pallet handler, in as convenient a place for you as possible.

If you think delivery this way may be a problem please contact us and we will consider other options.

Maximum Dimensions

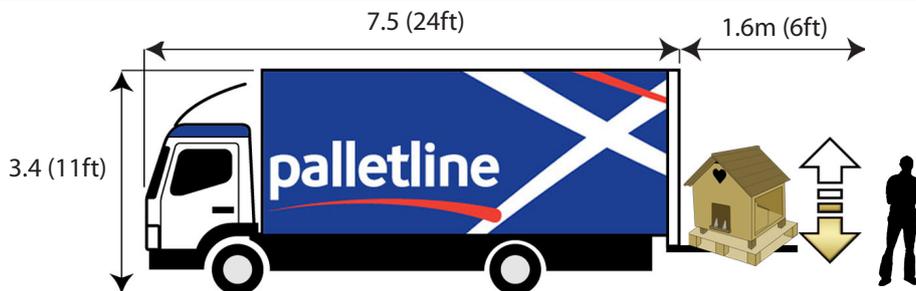

Please note that this is the largest single pallet size we can send.

Should your order be too large to fit on a single pallet assembled, we will pack your order on the pallet flat-packed to make it as easy as possible for you.

Not all houses are available both flat-packed or assembled so please check how your house can be moved into place, after delivery, when placing your order.

The delivery company will call to confirm an estimated time of arrival on the day of delivery.

We always request a small 7.5t lorry but if access for this size of vehicle is not possible (e.g. due to overhanging trees, narrow gateways etc), please call so we may consider other options.

A signature is always preferable but we can arrange for the pallet to be left in a safe place if required.

Ideally, access should be over 9ft 3in wide and obstacle free. The lorry needs to be on reasonably level ground or with the tail facing uphill. Please note that hand pump trucks **will not** operate on soft ground, grass or loose gravel

The whole team at Flyte so Fancy endeavor to make your pallet delivery an easy, stress-free experience. If you have any queries please contact us on the details below.
